

I went down to the crossroads, fell down on my knees
I went down to the crossroads, fell down on my knees
Well nobody seemed to care, won't you help me please

I went down to the crossroads, tried to flag a ride
I went down to the crossroads, tried to flag a ride
Well nobody seemed to know me, they all just passed me by

[Solo 1]

I went down to the crossroads, fell down on my knees
I went down to the crossroads, fell down on my knees
Well nobody seemed to care, won't you help me please

[Solo 2]

I went down to the crossroads, fell down on my knees
I went down to the crossroads, take my rider by my side
There's a lot of people there, gonna take her by my side
