

Complicate this world you wrapped for me
I'm acquainted with your suffering

All your weight it falls on me
It brings me down
All your weight it falls on me
It falls on me

Hold me up to all whom you've deceived
Promises you break you still believe

All your weight it falls on me
It brings me down
All your weight it brings me down
It brings me down
All your weight it falls on me
It brings me down
All your weight it falls on me
It falls on me

[Solo]

All your weight it falls on me
It brings me down
All your weight it falls on me
It falls on me
