

Well there's something goin' down
Right here in the neighborhood
Yeah there's something goin' down
And you don't know if you really should
Don't you lose your head
I'll make your heart feel good

Well there's trouble all around
Trouble with the PTA
Tell me what are you going to do
Taking all our highs away
It's enough to turn you around
But momma, not today

Come on little baby, let's call it rock & roll
Yeah come on little baby, let's call it rock and roll
Going to get a good feeling right down to your soul

[Solo 1]

Now your papa's getting down
Momma's saying you're no good
Ow baby, it's a shame
It's never really understood
How a dose of rock and roll
Can make your heart feel good

Well come on little baby, let's call it rock and roll
Yeah come on little mother, let's call it rock and roll
Gonna get a good feeling right down to your soul

Come on little baby, let's call it rock and roll
Come on little honey, let's call it rock and roll
Gonna get a good feeling right down to your soul

[Solo 2]

I said yeah! Yeah! Call it rock and roll
I said yeah! Yeah! Call it rock and roll
Gonna get a good feeling right down to your soul
Gonna get a good feeling right down to your soul
Gonna get a good feeling....
Right down to your sooooooul, yeah
