I heard it called by different names
All over the world but it's all the same
Now there's so many ways to make love
A million ways, I've been thinking of!

C# But there's only one way... **C#** There's only one way to rock!

So many things can get you high
I'm gonna try em all just once before I die
And you can analyze this situation
To me it's all just mental masturbation

C# There's only one way...　　**C#** There's only one way to rock!
C# There's only one way...　　**D5** There's only **E** one way to rock!

G# Now quickly, check the hands on the **A** clock
It's 8-oh **E** five, it's time to **F#** rock

And this world can disagree
They don't understand how it can be
And it's not my point of view
It's a fact! And you know that it's true

C# There's only one way...　　**C#** There's only one way to rock!
C# There's only one way...　　**D5** There's only **E** one

G# Crank up the drums, crank out the **A** bass
Crank up my **E** Les Paul in your **F#** face!

C# There's only one way...　　**C#** There's only one way to rock!
C# There's only one way...　　**C#** There's only one way to rock!
C# There's only one way...　　**D5** There's only **E5** one way to rock!

C# There's only one way
D5 There's only one way
E5 There's only one way... to rock!

<Outro/Solo>
