

Jesse rides through the night
Under the main street light
Ridin' slow

This ol' town, ain't the same
Now nobody knows his name
Times have changed, still he rides

Traffic lights, keepin' time
Oh, leading the wild and restless
Through the night

Still they ride on wheels of fire
They rule the night
Still they ride, the strong will survive
Chasing thunder

Spinning 'round, in a spell
Woah it's hard to leave this carousel
'round and 'round and 'round and 'round

Still they ride on wheels of fire
They rule the nights

[Solo]

Still they ride on wheels of fire
They rule the night
Still they ride, the strong will survive
Chasing thunder through the night
