

I had a dream, oh yeah
Crazy dream, ohhhh
Anything I wanted to know
Any place I needed... to go

Hear my song, yeah
People won't you listen now?
Sing along... oh!
You don't know what you're missing now

Any little song that you know
Everything that's small has to grow
And it has to grow!

[Solo]

California sunlight
Sweet Calcutta rain
Honolulu starbright
The song remains the same

[Interlude]

Sing out Hare Hare, ooh!
Dance the Hoochie-koo
City lights are oh so bright
As we go sliding sliding
Sliding sliding sliding sliding
Sliding sliding sliiiiiiding through
