

You can talk about me if you want to
You can try to hug me while you can
You can try to run me all you want to
You may find that I don't seek two plans
We don't need your businessman, don't go by your rules
The fast times meet the past times teacher & we just blow your tool

And we don't want no song and dance on how to run our lives
And we don't need no second chance to take you by surprise
The good times come, the bad times go
The fast times help to make it so, the time is now for all we know
This could be the best years of our lives

You may well be what they say about you
You might wander back to be with your friends
You may long for someone just to talk to
Hold you close and take you by the hand
'cause now you see there's more to life than what we learn in school
The fast times aren't the last time sugar, and let's not blow your cool

You don't want no fancy date to take you by surprise
You don't get no second chance to open up your eyes
The hard times come, the hard times go
The fast times help to make it so, the time is right for what we know
This could be the best years of our lives

Oh yeah!
Let's go!
Woo!
All right!
[Interlude]

This could the best years, the best years of our lives
We don't need no second chance to take you by surprise
The good times come, the bad times go, open up your eyes
The fast times help to make it so
This could be the best years of our lives

You know!
All right!
Ooh, yeah!
