Lonely is the Night

Lonely is the night Your demons come to light Lonely is the night You feel the time is right

It's a high time to fight Call it what you like Lonely, lonely, lonely! You find you're not the only When you find yourself alone And your mind is not your own When there's no one left to call Say, the writin's on the wall

When the walls are closin' in It's time you got to win Your spirit's sinkin' down Stranger in this town

Red lights, green lights, stop & go jive Headlines, deadlines jammin' your mind You been stealin' shots from the side Let your feelin's go for a ride

There's danger out tonightThe man is on the prowlGet the dynamiteThe boys are set to prowlLonely is the nightWhen you hear the voices callAre you ready for a fightDo you wanna take it all

Slowdown, showdown, waitin' on line Showtime, no time for changin' your mind Streets are ringin', march to the sound Let your secrets follow you down

Somebody's watchin' you baby so much you can do Nobody's stoppin' you baby from makin' it too One glimpse'll show you now baby, what the music can do One kiss'll show you now baby, it can happen to you

[Solo]

No more sleepin', wastin' our time Midnight creepin's first on our mind No more lazin' 'round the tv You'll go crazy, come out with me

[Break]
