

I could speak my words, you just might leave me
You're waiting for reaction
I could tell you lies, but you won't leave me
You're causing me distraction
Whoa!

I can feel your pain, don't you lie to me again
You'll regret everything you said to me
I can feel your pain, don't you lie to me again
You'll regret everything you said to me
Everything you said to me

Woo Hoo, Woo Hoo, Woo Hoo
Woo Hoo, Woo Hoo, Woo Hoo

You're a good time babe, but I don't need you
I'll give you my reaction
You could touch my skin, but I won't please you
You're causing me distraction
Whoa!

I can feel your pain, don't you lie to me again
You'll regret everything you said to me
I can feel your pain, don't you lie to me again
You'll regret everything you said to me
Everything you said to me

Oooooh Oh, ooh Uh ohh...uh uh oh...

I can feel your pain, don't you lie to me again
You'll regret everything you said to me,
Whoa!
I can feel your pain, don't you lie to me again
You'll regret everything you said to me
Everything you said to me
