

Show me that you love me, show me that you care
Cause my heart is stuck in quicksand, going absolutely nowhere
Show me that you need me, show me that you know
My heart is stuck in quicksand going absolutely nowhere
This heart of mine is breaking, my soul just seems so lost
I thought I would be ready, but now I know I'm surely not
This heart of mine is breaking, my soul just seems so lost
I thought I would be ready, but now I know I'm surely not

Hold me close, hear me breathe
Tell me that I'm still alive, tell me that I'm still alive
Hold me close, hear me breathe
Tell me that I'm still alive, tell me that I'm still alive

Let me see the world as I knew, in a different color
Just take my hand, let me feel your pulse, It's all I think I need (I need)
This heart of mine is breaking, my soul just seems so lost
I thought I would be ready, but now I know I'm surely not

Hold me close, hear me breathe
Tell me that I'm still alive, tell me that I'm still alive
Hold me close, hear me breathe
Tell me that I'm still alive, tell me that I'm still alive

<Guitar Solo>

Hold me close, hear me breathe
Tell me that I'm still alive, tell me that I'm still alive
Hold me close, hear me breathe
Tell me that I'm still alive, tell me that I'm still alive
Hold me close, hear me breathe
Tell me that I'm still alive, tell me that I'm still alive
Hold me close, hear me breathe
Tell me that I'm still alive, tell me that I'm still alive

Show me that you love me, show me that you care...
